MIRODOLL 66cm MALE
LONG COAT
FRONT
FACING
CUT 2

Special Note: To sew a lined coat - rather than the facing pieces, cut the front, back, and sleeve pieces out of lining fabric. Sew the lining in place starting at the center back hem, along the front and neck edge (sewing in the collar as well), back down the other front, and along the hem back to the starting point - but leave about 1 1/2" open to turn. Once turned out, hand stitch the hem opening closed as well as the sleeve linings to the garment at the wrists.
